Agile

- Easier to break than create/maintain
- Requires not just the team, but the whole organization
- Time independent
- Not a methodology
- Culturally driven
- Maximize the amount of work not done

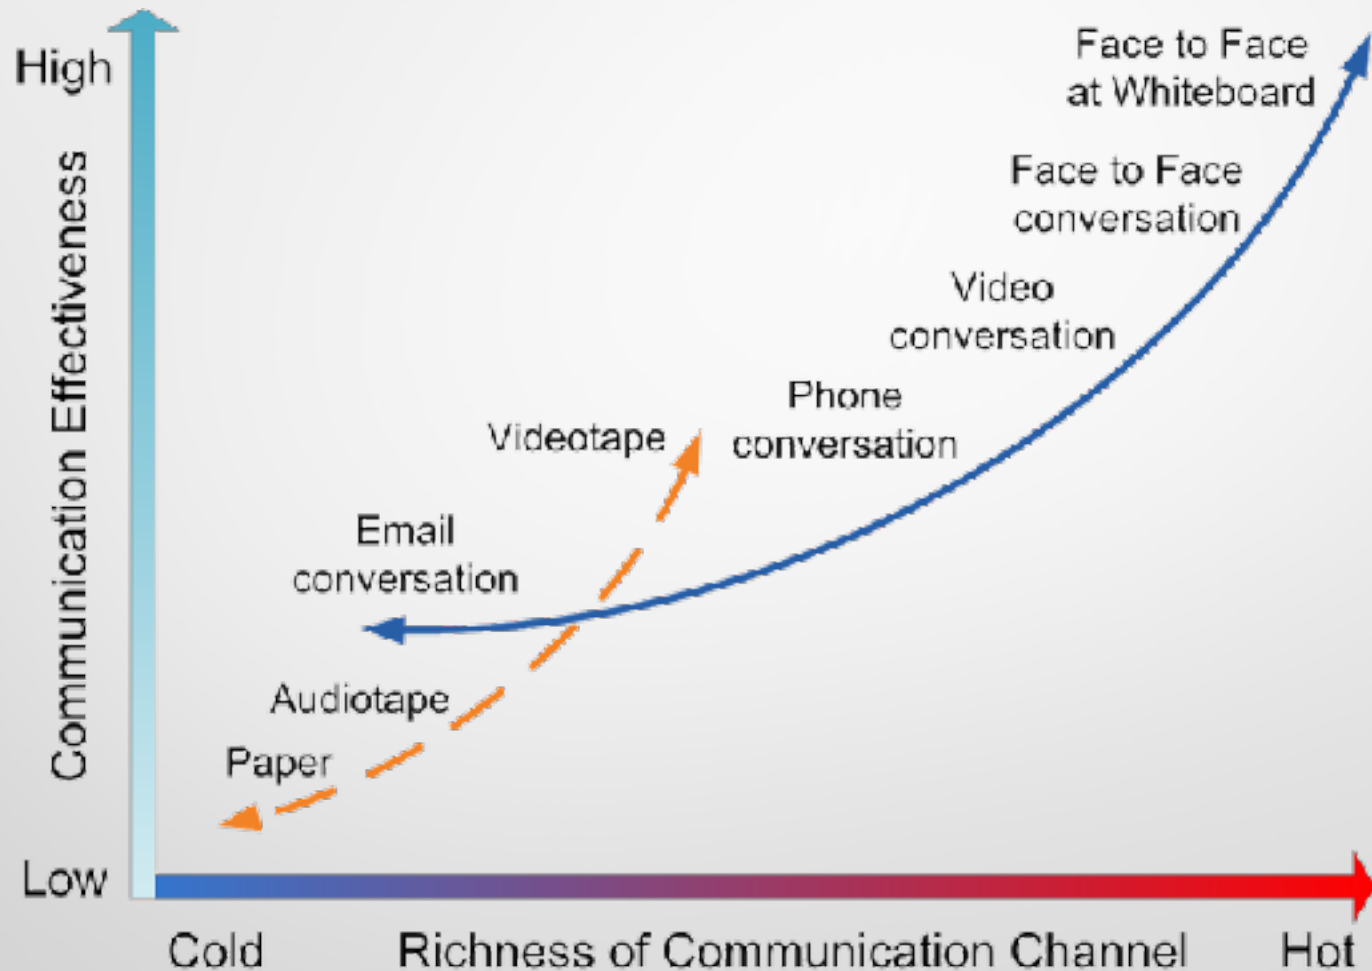

Agile is not formulaic; it is necessarily organic, ever changing within the environment in which it occurs.

The Hawthorne Effect

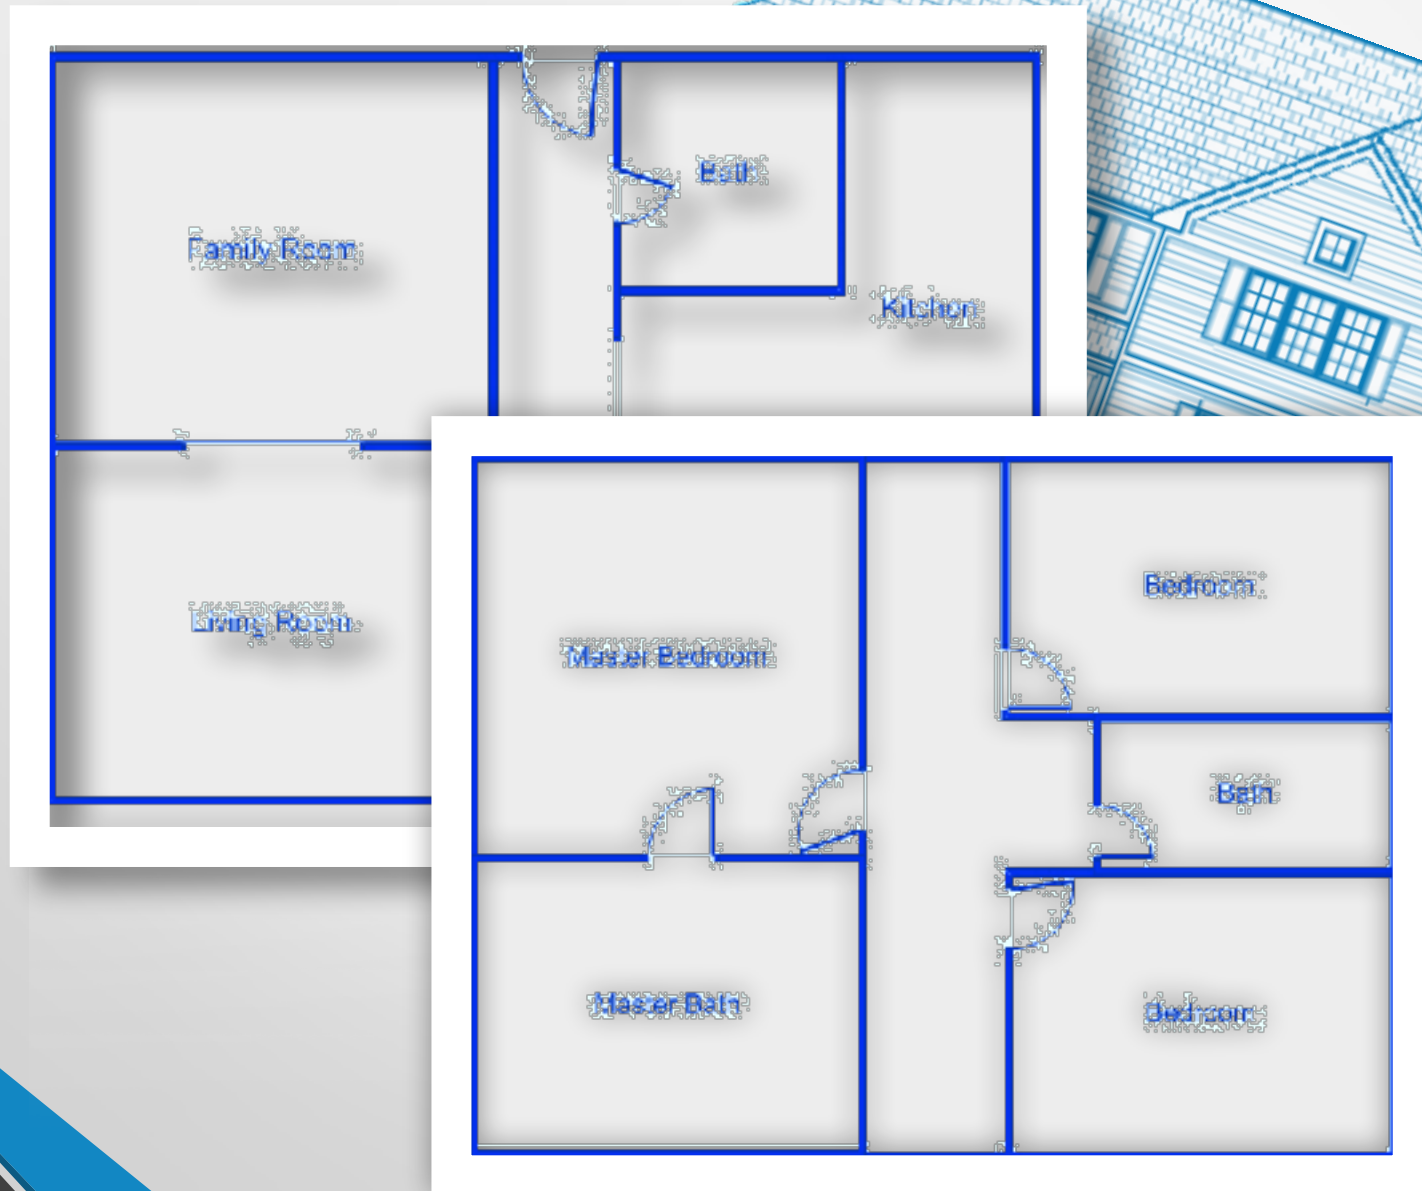

- Change of behaviors as a result of being measured
- Impact of other things on what is being measured

Communication Approach

"Blinged" 2010 Dan Clausing

Clarity of Requirements: Knowledge of the Unknown

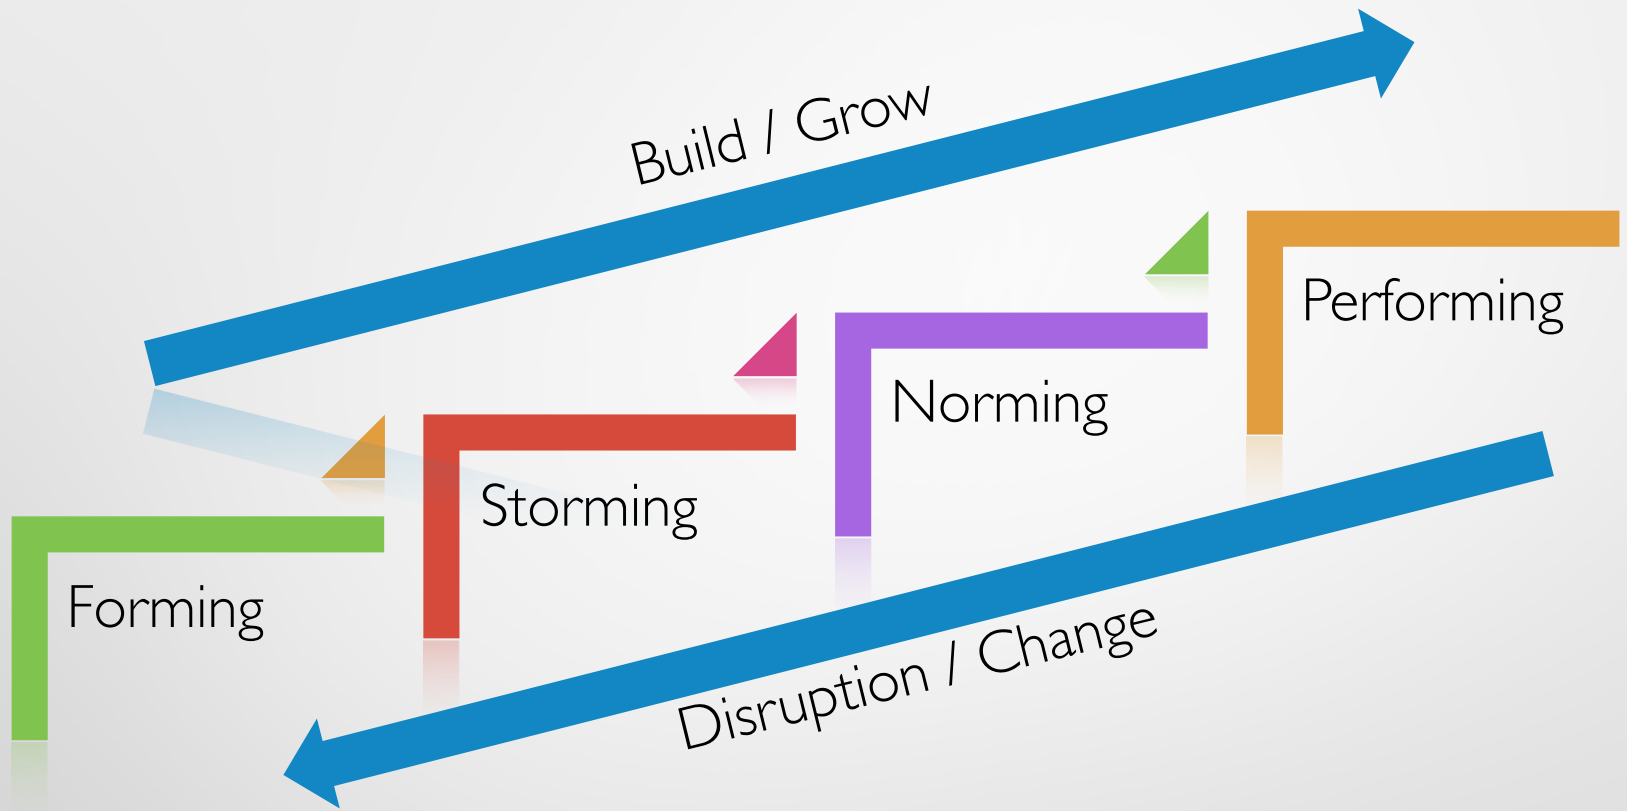

Learning – Path to Understanding

- Focused on understanding
- Encourages questioning (5 whys)
- Drives continuous improvement

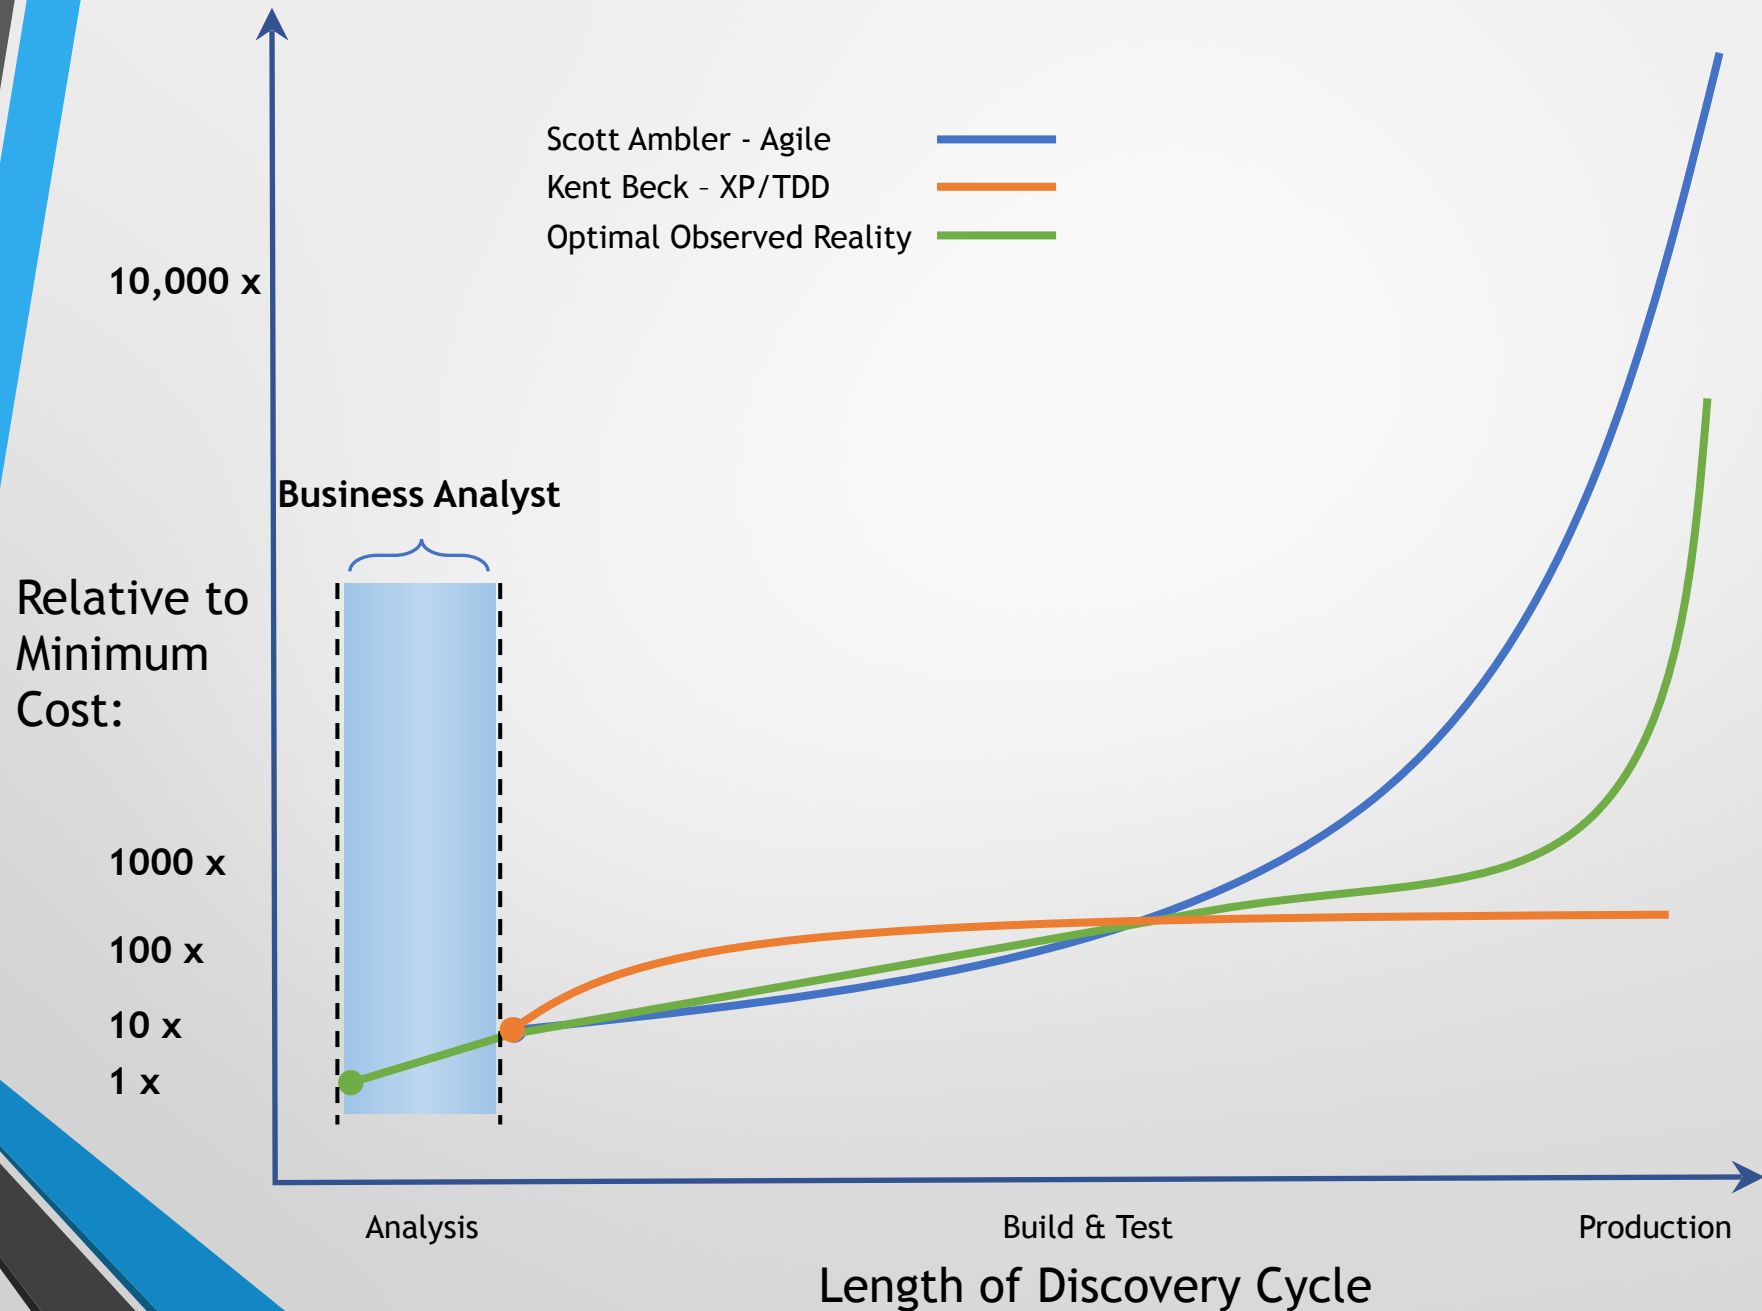

- Focused on process
- Ensures consistency
- Limits continuous improvement

(Re)Birth of a Team

Tuckman's stages of group development

Incremental cost of defects

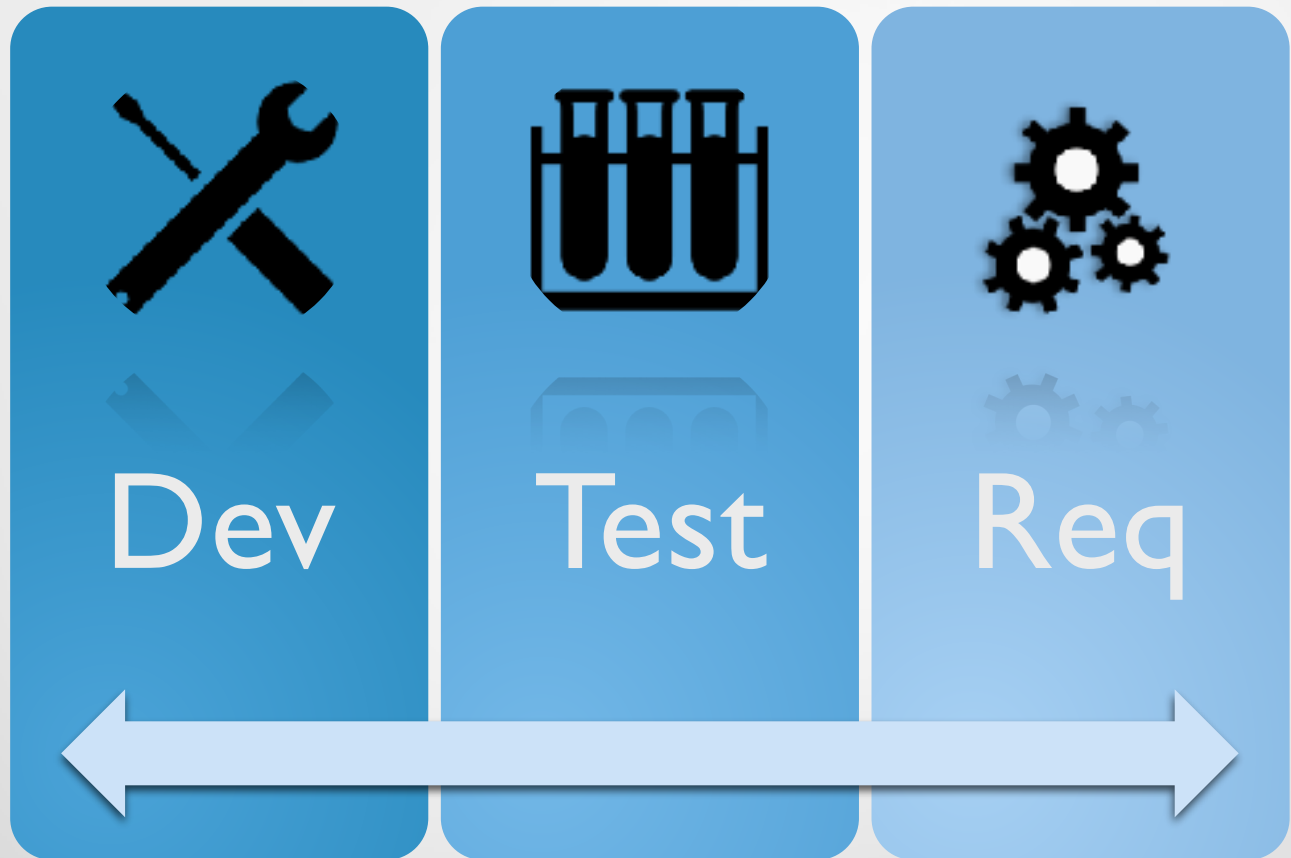

Understanding the Story

- Know what the tale is telling you.
- Trace, analyze and understand

What's up with 3 Amigos?

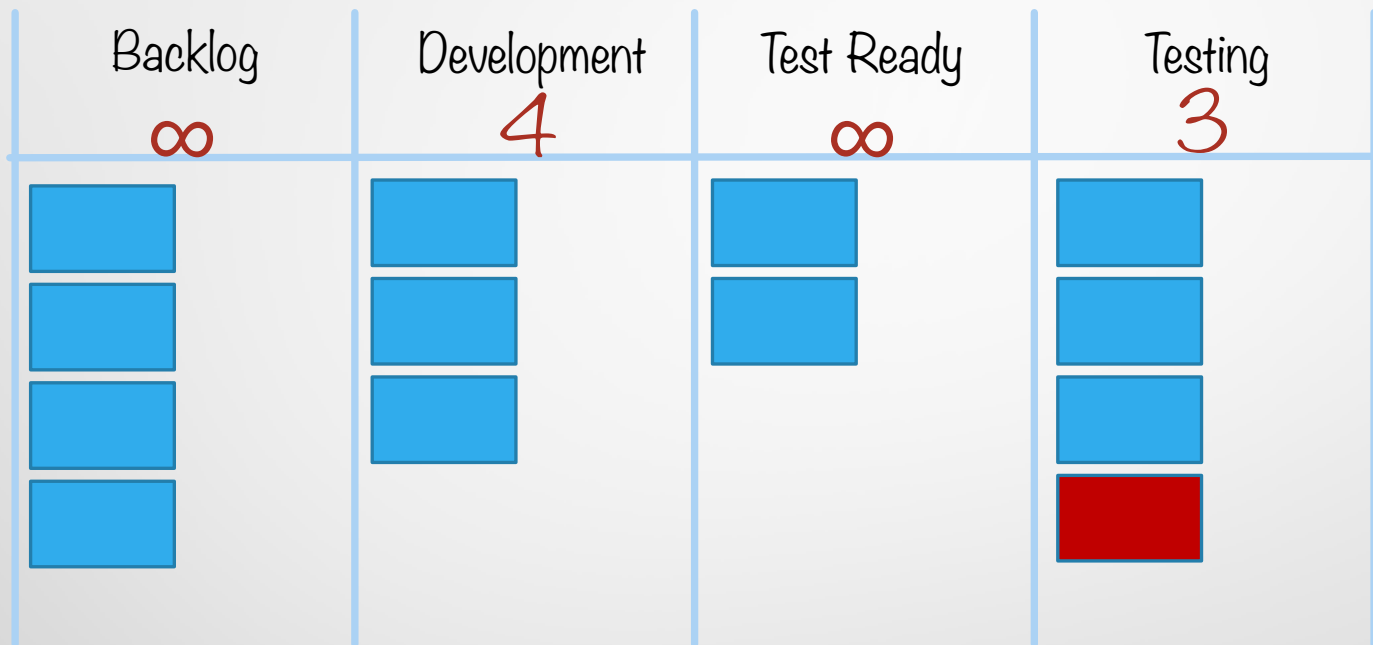

- Conversation
- Not Scheduled
- Role Mindset

Story Cards – Simplify

Proto-Kanban – What to do with all those cards?

- Process/Flow limits
- WIP
- Cycle Times
